ODOUR RECOGNITION SCREENING PACKS

This pack has been developed to aid sensory departments in industry to screen assessors for descriptive ability of odours and odour recognition. It can also be used to train new assessors to identify certain odours.

The pack contains three sniff pots all of which contain a different odour (typically lime, mint and clove) although the types of odours can be determined by yourself and your requirements. They would be individually labelled with 3-digit codes, and a template sheet and instructions are included to help set up the odour recognition session.

There will be a variety of odours available to suit your needs and these have a 6-month shelf life if kept in a cool, dark place.

The instructions clearly state the procedure required to conduct the screening.

Prices

Member rate: Prices per pack of 3 pots - **£55** (£18 per extra pot)

Non member: Prices per pack of 3 pots - **£65** (£22 per extra pot)

If you would like to place an order, please contact:
