

Made to **DO MORE**

We've expanded what
we can do — and now
you can too.

How we can help you **DO MORE**

Our 2,500 employees are dedicated to enhancing global food security through improved food safety, animal safety, and increased output via genomics. Whether it's on the farm, in processing facilities, laboratories, or anywhere else, we're the partner you need to do more.

Comprehensive Food Safety Solutions

Indicator Organism Testing *Petrifilm® Plates and Petrifilm® Plate Reader Advanced*

Streamline your testing with ready-to-use plates that require no prep. Quickly and accurately enumerate plates in six seconds or less.

Microbial Detection *Soleris® Automated Testing*

Get fast and reliable detection of microorganisms including TVC, yeasts and moulds, Enterobacteriaceae, *E. coli*, coliforms, and many others.

Culture Media

Our range of dehydrated culture media formulations include chromogenic agars and proprietary formulations that enable our sensitive One Broth One Plate alternative workflows.

Hygiene Monitoring

Our handheld hygiene monitoring solutions let you quickly verify cleaning effectiveness and capture, store, and manage data.

Pathogen Detection

Pathogen detection tests that are designed to fit a variety of testing needs. Food safety and contract labs can get confident answers quickly, with same-day or next-day results.

DO MORE with confidence

Our dedicated global network of over 300 engineers and scientists are here to help you. We also have educational resources and support teams to keep you up and running.

DO MORE with proven solutions

From environmental monitoring to data analysis and everything in between, our solutions keep your organisation at the forefront of food safety and quality.

DO MORE around the world

Our global footprint means we're able to meet you commercially or technically in local language while being mindful of your local regulatory requirements.

Allergen Testing

Qualitative and quantitative testing solutions that are designed to detect allergens in a wide variety of sample types and be used as part of your allergen control plan.

Food Quality Analysis

Enhance your food quality and nutritional assessments with Megazyme® advanced enzymatic solutions.

Natural Toxin Testing

Test for natural toxins such as mycotoxins and histamine with solutions designed to deliver fast and accurate results.

UHT/ESL Testing

Rapidly test a wide variety of UHT and ESL beverages such as juices, caffeinated drinks, coconut waters, dairy, and more.

Sample Collection

Better testing begins with better samples. Choose intuitive and easy-to-use sample collection products that help streamline processes from start to finish.

Fuelling the Future of Food Safety.

At Neogen®, we continue to add to our existing capabilities with more innovative products and food safety expertise to help make you make your laboratory and production more efficient. We've built and acquired new manufacturing and distribution facilities and continue to expand our global presence — to allow you even more access to the products and services you need wherever you are.
